RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am writing to you today in order to articulate my support for NBC Universal and Comcast's prospective new partnership. Over the years, Comcast has been a model of good corporate citizenship.

As a member of the Pennsylvania House of Representatives, I can speak first-hand to Comcast's contributions to the local and national economy. Comcast has a workforce of over 100,000 employees, 10,000 of whom are in Pennsylvania. Furthermore, Comcast employees have consistently evaluated the company as a fair employer that is invested in its workforce.

Comcast's massive investment in broadband technology has brought unprecedented opportunity to Pennsylvania's consumers and small businesses. By investing some \$6 billion in our state since 1996, Comcast has paved the way for our residents to save hundreds of dollars a year on their phone bills and provided our entrepreneurs with access to critical small business tools that have enabled them to compete in an increasingly global marketplace.

Comcast makes a positive difference in the community by working with numerous non-profit organizations, including both small local charities and national organizations. Some of Comcast's national partners include Big Brothers Big Sisters, the United Way and Partnership for a Drug-Free America.

Comcast has worked hard to bolster community economies and contribute to non-profit organizations. This work ethic and spirit of giving has helped the company grow and succeed, and I fully support its new endeavor.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Matt Smith', with a long horizontal flourish extending to the right.

Matt Smith
State Representative
